6 reasons to complete a Dependent Eligibility Verification audit

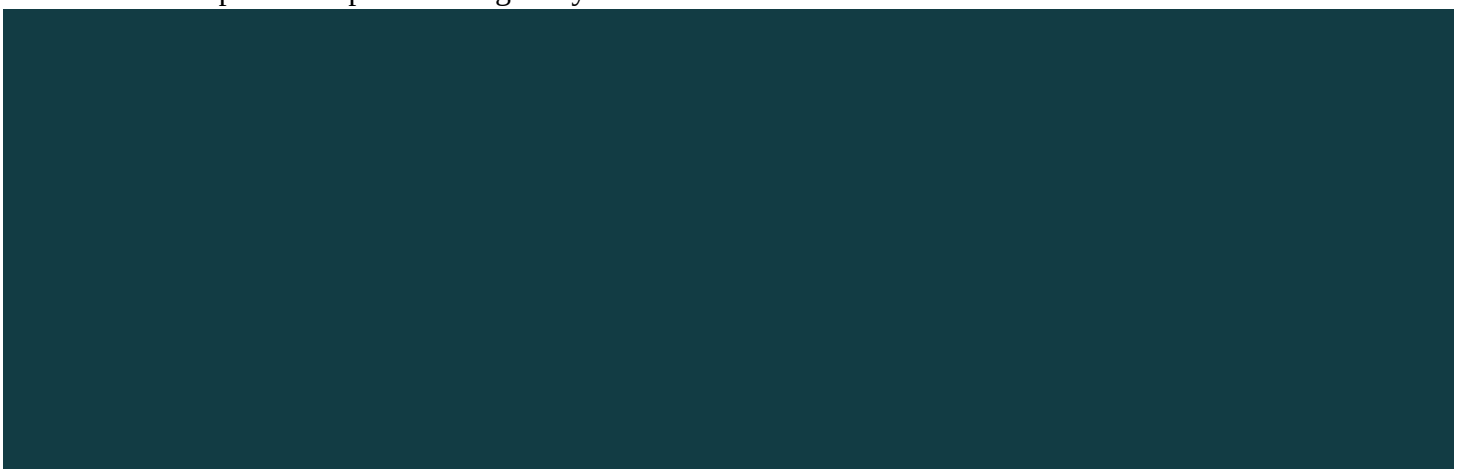

Did you know?

Our team has found that the average annual incurred medical cost per dependent exceeds $6,860, and a DEV audit yields a 3% – 10% removal rate of ineligible dependents. Interested in other reasons your organization should complete a DEV audit?

Check out this article authored by Lexi Trampe, DEV Leader at Aptia. She dives into the 6 key reasons why this process is crucial for any business.
